Neeraj Paliwal
General manager and Vice President of Security IP
Rambus

Neeraj is currently the general manager and VP of Security IP at Rambus, based out of Silicon Valley, CA. He has 20+ years of semiconductors engineering experience in compute and security domains. At Rambus, Neeraj is responsible for the Secure Silicon IP and Provisioning products. Before joining Rambus, Neeraj founded Kryptos Solutions, where he built an ultra-secure endpoint platform for high-risk government applications. Prior to that, Neeraj was the VP of Engineering at NXP Semiconductors, responsible for major OEM design-win for NXP's NFC based secure payment platform. Neeraj also held various engineering positions at IBM and Intel working on gaming processors, and CPU products.

Neeraj graduated with a Master of Technology degree in Solid State Materials from the Indian Institute of Technology in Delhi, India. He attended the Stanford Executive Program at Stanford University, California.
